Passcode: 019639

Our community has been invited into the MSBA (Massachusetts School Building Authority) process to explore the Elmwood School. The scope of study includes examining potential repairs, renovation, and new construction on the existing or alternative sites for a sustainably designed Grade 2-3 or Grades 2-3-4 school. An expanded study, run in conjunction with this study, will explore the system-wide impact at all our schools.

WHAT TO EXPECT: The Town, in partnership with the MSBA and project team, will gather information, listen, learn, establish goals, and develop options throughout the fall. In December the options will be refined and assessed. Faculty and community forums will occur throughout the process. The grade configuration decision is expected to occur over the course of several School Committee Meetings in January, and the final solution selected by the School Building Committee in February 2023.

IMPORTANT DATES:

- Sept.19 Community Kickoff & open discussions (virtual)*
- Oct. 4 Community Forum-I overview & existing conditions (in-person)
- Nov.2 Community Forum-II explore vision/grade configuration (in-person)
- Dec.7 Community Forum-III review sites/options & traffic (virtual)*
- Mid-Jan. School Committee deliberation on grade configuration & decision
- Jan. 24 Community Forum-IV thoughts on a shortlist of options (virtual)*
- Mid-Feb. Building Committee final decision on the preferred option

THE PROJECT TEAM:
